UMBRELLA AND SHOES.

Their Importance In the Eyes of the Indian Native.

India is so vast that different etiquettes prevail in different districts. We have no standard etiquette, no standard dress. We mostly copy European etiquette while with Europeans. Even a Bengalese shakes hands with a Bengalese, speaks in English for a few minutes and then breaks forth into the vernacular. We shake hands with a European on parting, but by mistake again touch the hand to the brow in a salam, so we both shake hands, salam and do the like, and no sober minded European ever cared for the like.

The umbrella is the emblem of royalty, the sign of a rajah; so natives generally fold their umbrellas before a rajah and not before anybody else, however great. It is not a part of the dress, but a protection from the rain or sun, a necessary appendage, just like the watch and chain. You might as well ask a European to take off his waterproof coat. A coolie is not bound to fold his umbrella when a brigadier general rides past. But a native generally closes down the umbrella on seeing his master, whom he considers his king. But no Indian, however humble, ought to fold up the umbrella, even before a magistrate, because he is neither the master of the humble passerby nor his superior officer, nor is he bound to salute him. But if he does, no harm. In a word, natives generally fold the umbrella before a master or a superior officer and not any other citizen, however great, and this is no insult.

While going to see a native chief in his palace the native visitor or official takes off his shoes if the reception room has a farash and the rajah is sitting on his musnud. But if he is received in the drawing room, furnished after the European style, the shoes are allowed. In some states no natives can go to a rajah without a pugree. In others the pugree is taken off and tossed at the feet of a rajah.

It is ridiculous in a European from the Hindoo point of view to order a native to take off his shoes. This is what we ask our priest to do, so that we may touch the dirt of his feet. A man will when mildly rebuked by his sahibs take off his shoes, but recounted the whole scene to his better half, saying, "Sala hamara gor ka guda lehni magana!" ("The brother-in-law wants the dust of my feet")—Indian Military Gazette.

A Novelty.

Guest—I hear you are going to give up housekeeping. Host—Sh! Not so loud! My wife wants to have the satisfaction of discharging the cook. Puck.

Protest Miners Imprisonment.
Deadwood, S. D., Feb. 19.—Following a parade a mass meeting was held here to protest against the imprisonment of Moyer and Haywood in Idaho. A coffin carried in the parade was inscribed "Liberty". At the meeting the speeches were red on the incendiary, one talker expressing the hope that one capitalist be test for every tear shed by Moyer's daughter.

Dismissed from the Navy.

Washington, Feb. 19.—Assistant Paymaster W. R. Syphard, U. S. N., has been dismissed from the navy on account of technical embezzlement. Syphard was tried at the navy yard in this city on the charge of being unable to account for \$1,329 of funds entrusted to him. The board convicted him and the matter has been before the secretary of the navy for some time.

Too Seifish.

Citman—What's the matter with all you Swampurst fellows? You don't seem to like my friend Backlotz. Sub-bubs—No; he's seifish. Citman—Oh, come now! Sub-bubs—That's what he is. A barn near him caught fire the other night, and he put it out without waiting for the rest of us members of the Swampurst Hose to reach the scene.—Philadelphia Public Ledger.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry bark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities among a host of others, extol the foregoing nostrum: Dr. C. H. C. Smith, Dr. J. G. Langford, M. D., of Jefferson Med. College, Philadelphia; Prof. J. W. E. Pickering, M. D., of Harvard Med. Coll.; Dr. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edward L. King, M. D., of New Haven, Conn.; Dr. John M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Pract. in Bennett's Medical Library, Chicago. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tan and sugar-coated.

"THERE'S A CURE FOR RHEUMATISM!"

Not the mere temporary relief that the old "remedies" gave, not the little help that the doctor's prescriptions give; but ABSOLUTE AND COMPLETE CURE. That is what Rheumacide does. Rheumatism is caused by an excess of uric acid in the blood. It is an internal disease and requires a strong and vigorous internal remedy that will cleanse the blood of all its germs and yet act through such natural methods that it builds up the entire system.
